

BURHAN ELIAÇIK

After having graduated from METU Industry Engineering, Burhan Eliaçık started to work at Garanti Bank in 2000.

Until when he left Garanti Bank in 2011, he assumed the leadership of those projects for joint use of workplace investments of banks, which make it possible to provide alternative products and services from member workplaces network, and which ensure that payment systems can reach large masses thanks to prepaid card and reaching projects.

Starting from 2011, he come to office at Vodafone Turkey as Senior Mobile Financial Services Director. Eliaçık has, starting from the efforts of establishment of the relevant department, carried out many works and developed many services at this company, in order that those large masses which use a bank or which have not made acquaintance with banking services yet, can access to financial services. During his term of office, he put into practice the prepaid card project with the most comprehensive member workplace network in Turkey, and in addition, he gained many awards in global scale thanks to Vodafone Mobile Wallet having the "Social Wallet" concept, which contains in itself many worldwide firsts times and innovations.

Having assumed the office of Chairman of the Board of Directors of Payment and Electronic Money Association (ÖDED) starting from its establishment, he made significant contributions in our country for development of financial technology and payment systems.

Following his office as General Manager of Wirecard Turkey, he is currently continuing his business life as the General Manager of iPara.

With establishment in 2020 of Turkish Association of Payment and Electronic Money Institutions, he assumed the office of the first Chairman of the Board of Directors of the Association.

Burhan Eliaçık is married and father of 1 child.
