

## **PROF. DR. MICHELE NOTARI**

Michele Notari is Professor in technology enhanced learning at the University of Teacher Education in Bern Switzerland and the University of Hong Kong. His research interests are computer supported collaborative learning, technology enhanced project-based learning, wearable computing and learning using Computer mediated reality. Prof. Notari has a high level of expertise in digital education with explicit teaching and research agenda in that direction. He was the founding president of the One Laptop Per Child organization Switzerland (part of [one.laptop.org](http://one.laptop.org) ) and founding member of [NeoWay.org](http://NeoWay.org), wisdom accelerator for youth. Michele sits on several boards as expert for technology enhanced education including the Athena School of Management and has given keynote talks at the Horasis conference, the Woman Justice Summit and many others. He runs and participates to different initiatives enabling and enhancing learning using technologies in remote areas in the world. He is a strong advocate for the promotion of the education of teachers as vector for facing global problems in a sustainable way.
